

CARTON CARE IS EASY!

Drink it.

Get all the yummy goodness of milk into your body.

Rinse it.

Rinse out your carton with water.

Place it.

Place your carton in the Made By Milk™ collection bin.

Dry it.

Allow the carton to dry for at least two days in a proper receptacle. Cartons should be left in open air, not a bag, to prevent mold and mildew.

BENEFITS OF CARTONS

Did you know?

- 1 **70%** of a carton is made from renewable materials.
- 2 Cartons are made out of paper from trees from **responsibly managed forests**.
- 3 **Carton recycling** is available for over 68 million households in the U.S.
- 4 Visit recyclecartons.com to check availability in your area.

“While working on our project, we taught our students about renewable resources and we were also able to reinforce the reduce, reuse, and recycle lessons our children are always taught!”
